Dear parents, children and teenagers

Welcome to our paediatric practice in Aachen-Burtscheid where German, English, French and Greek are spoken.

We are pleased to introduce our team and our practice on this website. Here you can find information about our main focus and the range of services that we offer.

It is our aim to ensure that your child grows up healthily and in good care. We want to accompany and support you and your family during your journey through life. Special attention is paid to medical check-ups and disease prevention for all of our patients, from premature and new born children up to adolescents and young adults. In our practice we offer all health examinations from the U2 (3rd to 10th day of life) up to the J2 (16th to 17th year of life). All vaccinations recommended by the German Standing Committee on Vaccination (STIKO) can be administered.

Of course you can contact us in any case of acute or chronic disease or to ask any question you might have, for example regarding the physical or mental development, nutrition or prevention of accidents.

We want you and your children to feel in good hands and we hope that the information on our website can help. Please do not hesitate to call us to find the best solution for your specific situation (phone number: +49 241 66232).

We are looking forward to welcome you and your children in our practice.

Dr. Ulrike Forster and team
